Summary

Here is my recently reviewed detailed profile: <http://geo.emisdb.ru>.

I am a senior software engineer with 16 years of continuous experience in the web application development. Now based in Batumi, Republic of Georgia.

My main specialization is complex back-end web application with the ample use of interactive elements on modern platforms. Hereby I selected the most relevant to your project details of my 25 years long career.

My main technological stack is PHP development with the use of popular frameworks Yii and Laravel, using databases (MySQL, PostgreSQL), server instruments (Memcached, Redis) and web-based platforms (Google Ad, Facebook Ads, Leadspedia) in a big variety of business fields.

Extensive experience of frontend development using HTML5, CSS, JS, JQuery, Bootstrap, numerous libraries like Google API, Yandex API, recently focus on Vue.JS.

Successfully completed 9 (3 in web) projects through individual effort and participated in 5 (all in web) big commercial ongoing projects as a team member during 25 years of my continuous career.

Extended version of this resume is available: http://geo.emisdb.ru/docs/cv_eng_g.pdf
